
Ready...Set... *GO CRAFT!*

The countdown is on! Get set for an exciting adventure through the world of religious crafts. Together, we will take our children on a journey to the kingdom of God, through Bible verses and stories as well as fun games and activities, all done in twenty minutes or less (and costing mere pennies)!

As a longtime religious education teacher, I understand that many of us do not have extra time to schedule much beyond our course curriculum. Even if we do have time, it is often difficult to find fun, new, engaging, and tactile activities that can help our children experience the world of God.

So, with help from my students and other teachers just like you, I designed this book to do three primary things:

1. Prepare quick and easy crafts that can be created in the classroom in twenty minutes or less.
2. Create inexpensive crafts that generate learning and fun. (All the crafts can be done for pennies; we all know that religious education teachers spend much of their own money on supplies.)
3. Utilize easily accessible materials that can be found in your home and around your neighborhood.

This book also contains a companion CD with color images, worksheets, and cutouts that can easily be printed at your leisure. You will also find many hints and tips that will help get you organized and ready to do some crafting fun!

This book was created with a deep faith and love for God, which has shown me the ever-abundant beauty in all that we do and experience. My hope is that it enriches the journeys of all those who read it, and that they will come to see the true beauty of the world with childlike faith and wonder.

God bless you, and happy crafting!
