This sourcebook offers new insights into the Generations of Faith approach to faith formation. It creates a lifelong formation plan and describes intergenerational learning programs that gather all the generations to learn together and nurture faith.

The key in the Generations approach to faith formation is that it builds on the strengths of a parish's current catechetical program, while creating a lifelong faith formation plan and intergenerational learning programs that gather all the generations to learn together. The CD includes PowerPoint presentations for each chapter, along with articles by religious education theorists who have been instrumental in developing a new paradigm of lifelong faith formation.
